

IS MY BRAIN DIFFERENT?

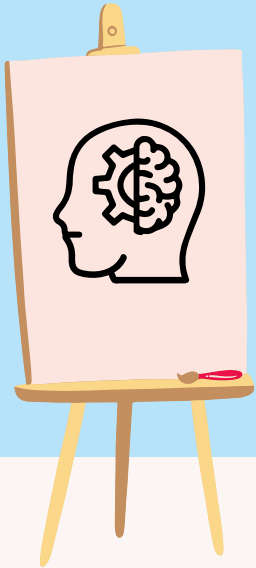

By Viviana De Felipe

This book belongs to:

ABCDEFGHIJKLMNOPQRSTUVWXYZ

Everybody has a brain.
But every brain is
different and unique as
each person

Everybody's brains work in their own special way

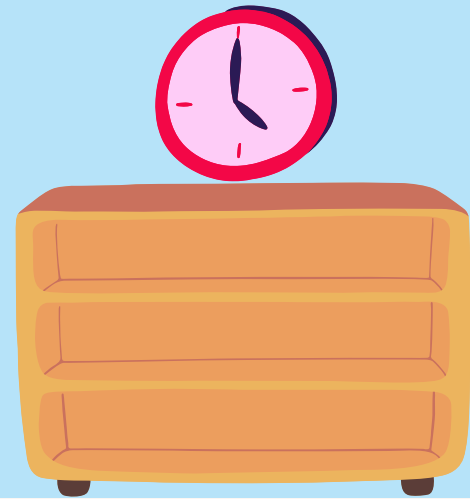

**Sometimes my brain
needs a break to calm
and reset**

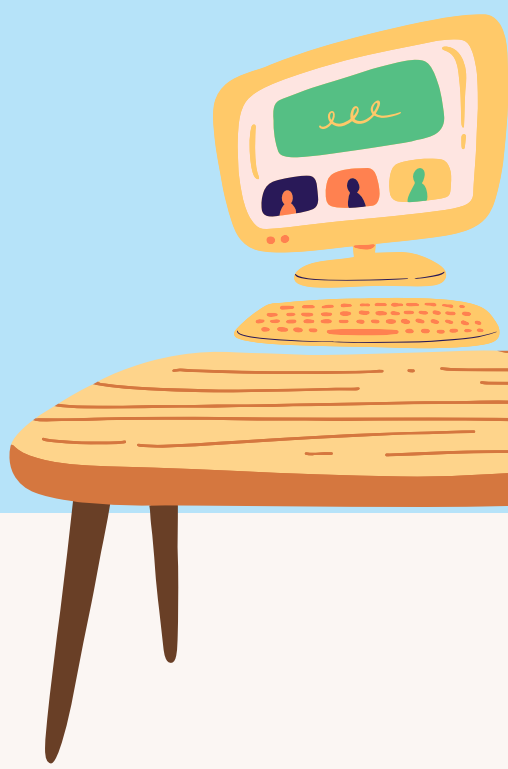

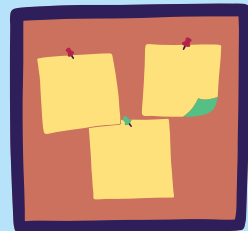

**My brain sometimes
doesn't like loud noises
like trucks and i have
to cover my ears**

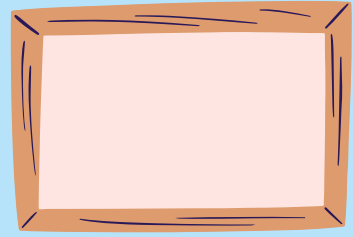

**Sometimes it is hard
for my brain to
concentrate**

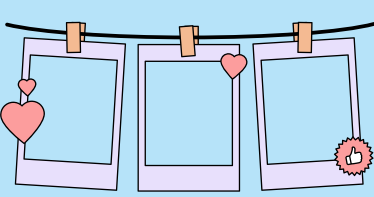

**Sometimes my brain
needs my body to move**

**Sometimes it is
difficult for my brain
to understand others
when they talk**

**Sometimes people
don't understand
what I mean**

**Sometimes it is
difficult for my brain
to find the right
words to explain and
talk to others**

Because my brain works in a special
and unique way I have amazing skills
and talents

**I am a good
artist**

**I have great
imagination**

**I am great at
doing puzzles**

Because my brain works in different ways, I can be really good at one thing but may need help on others

I am good at reading

I need help with math

Everybody's brain is different.
Celebrate it!
It's part of who you are and
YOU are amazing
